UI/UX Design Training

Programing @zidio Development

Certificate No: zidio/01365

## PROFILE SUMMARY

UI/UX Designer fresher with skills in Figma, Adobe XD, and HTML, focused on creating user-centered and intuitive designs. Experienced in applying design principles and user research to develop engaging digital solutions. Eager to contribute creative ideas and collaborate on innovative projects.

## INTERNSHIP PROJECT

### Project - 1

#### Job Listening Portal UI (Figma , Miro)

- Developed a Job Listing Portal during my internship at Zidio Development to connect job seekers and employers.
- Enabled job seekers to register, search for jobs, and apply, while employers can post and manage openings.
- Provided personalized profiles and dashboards for users to track applications and job postings.
- Streamlined the job search and recruitment process to enhance overall user experience.

### Project - 2

#### E- learning Portal UI (Figma , Adobe XD ,Miro)

- Developed an E-Learning Portal during my internship at Zidio Development to enhance online learning for students and educators.
- Enabled educators to upload materials and create courses, while students can easily access and download resources.
- Provided user profiles, personalized dashboards, and seamless navigation for both students and teachers.
- Focused on user-centered design to streamline the learning experience and improve engagement.

## SOFT SKILLS

**Communication:** Clearly convey design ideas and collaborate with team members and stakeholders.

**Creativity:** Generate innovative design solutions and think outside the box.

**Problem-Solving:** Analyze challenges and develop effective design solutions.

**Attention to Detail:** Focus on the finer points of design to ensure high-quality outputs.
